

PUPPY PROFILE
(AVERAGE EXAMPLE)

Family Composition (Mom, dad, brothers, sisters? How old? Who raised the pup?)

My family at home consists of my mom, dad, and teenage old brother, as well as my career change TSE pup. Pup was raised by me, but on weekends when I was working, he spent a good amount of time with my dad.

Environment (House, Apartment, Country, Suburbs, Fenced Yard, State?)

Pup lives with me in a two-story house in a rural neighborhood. My home has a fenced in yard in which he runs around on a good amount. I live in a development, so it is quiet. Pup also goes to college three days out of the week, so he is used to that environment as well.

Pet Friends (Any other animals your puppy grew up with? Was close to? Did not get along with?)

Pup grew up with my TSE career change dog. He very much likes my older dog, and consistently wants to play. My older dog is friendly, but does get annoyed with pup's behavior quite easily.

Exposure (Outings with family or club? Experiences outside home - fairs, school, work, rides?)

Pup has been exposed to buses, to a train (going by, not riding on one), the mall, pet stores, public parks, college campus and classes, Liberty Science Center, Morristown Fall Festival, and the Newark airport.

Positive Characteristics/Traits (Qualities or words you would describe your puppy to someone)

Pup is very curious, playful, and affectionate. He also listens well, and loves to cuddle.

Toys (What toys did your puppy play with? Loves? Powerful chewer?)

Pup has played with plush and stuffed toys, which he has destroyed quite easily. He has also played with Nylabones (which he enjoys a lot), and deer antlers.

Favorite Memories (Nice! Not naughty)

I will remember most how happy my pup gets when you say his name, and how happy he is to be near you. I will also remember his bubbly, lively personality, and how much he loves to play.

How did your puppy let you know it had to go outside?

Pup rang a set of bells tied to the back of my door with ribbon.
