

PUPPY PROFILE

(POOR EXAMPLE)

Family Composition (Mom, dad, brothers, sisters? How old? Who raised the pup?)

Mom, dad, 17 year old girl, 13 & 6 year old boys. Raised by the daughter, but mom and dad did most of the work. Pup loved our daughter.

Environment (House, Apartment, Country, Suburbs, Fenced Yard, State?)

House in the NJ suburbs; no fenced in yard.

Pet Friends (Any other animals your puppy grew up with? Was close to? Did not get along with?)

8 year old male, Lab/Boxer mix - liked to sleep touching him but also annoyed him.

Exposure (Outings with family or club? Experiences outside home - fairs, school, work, rides?)

Library, bank, fast food places, airport, mall, woods.

Positive Characteristics/Traits (Qualities or words you would describe your puppy to someone)

Friendly, social, excited, sneaky.

Toys (What toys did your puppy play with? Loves? Powerful chewer?)

Hard bone, rope - destroyed many things, especially made of wood.

Favorite Memories (Nice! Not naughty)

Pup liked to race upstairs and slide under our beds before we could grab him. Then he would find a tissue or stuffed animal that made its way under them and chew it apart. The only way we could get him out was to climb under and grab him gently by the tail.

How did your puppy let you know it had to go outside?

Bark.
